Office Action Summary

Art Unit: 1774

1. Claims 1-3, 5, 6 and 16-18 are again rejected under 35 U.S.C. 103(a) as being unpatentable over the patent to Heneghan et al. for the reasons of record

Applicant's response stresses the significance of the amount of pigment employed in the representative and comparative examples. The aforementioned pigment amounts, however, are a) not clearly stated in Table 1 and b) not self-evident. Consequently, it is suggested that applicants submit another response in which the pigment types and amounts employed in all of the examples are clearly set forth as an aid in the determination of the validity of applicants argument. This additional information would be considered by the examiner.

2. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
